Why choose us?

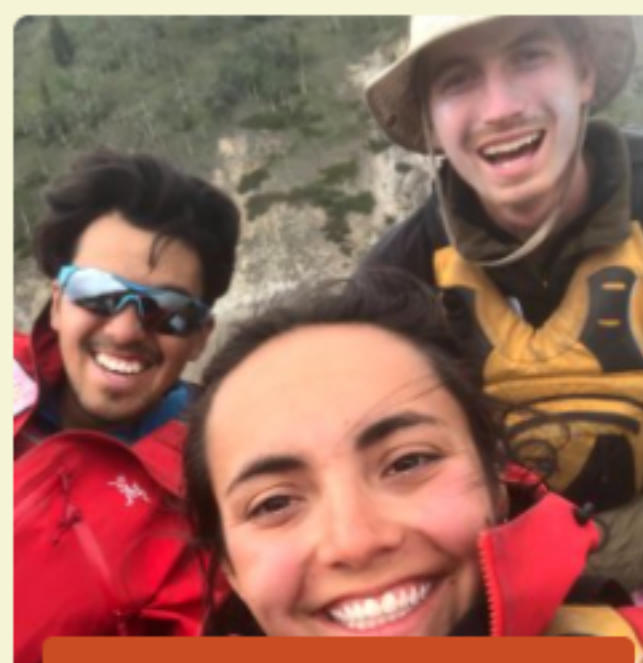

Social-emotional learning

We are mentors who can help foster resilience, empathy and leadership in your emotions and relationships.

Climate change activism and education

We facilitate discussion and action to reduce carbon use, food waste, non-recyclable materials and more.

Indigenous perspectives

We employ Indigenous-led expeditions and always invite local First Nations to participate and collaborate in our camps.

After each journey, she returns home with exciting stories, new wilderness survival skills, strong leadership skills, and a keener sense of self. Your program has provided her with friendships and memories to last a lifetime. I am so grateful for the opportunity, and for your dedication and amazing relationship with the kids! I definitely recommend Fireside to any young person out there."

Our story

We are experiential educators.

For two decades, we have created outdoor experiences that empower children, youth and families to lead their way through life's grandest adventures.

We believe in the power of social-emotional learning, resilience and positive personal image. In climate change activism, Indigenous rights & perspectives, and land-based self-care.

Most importantly, we believe in youth. At Fireside Adventures, all children are seen, heard and believed.
